1. As reflected in reference d. approved on 28 September 1967, the United States Intelligence Board (USIB) at its 21 September meeting approved the following recommendations regarding the subject as contained in paragraphs 9.a., c. and d. of the Committee on Documentation (CODIB) report in reference a.:

a. That the Navy be granted a waiver of para. 1.g. of USIB-D-39.5/19 in releasing to CNA intelligence products of USIB agencies carrying security classifications not higher than SECRET, provided these products do not bear special system markings.

(Note: This would permit Navy to relieve CNA of the requirement for keeping a special detailed list of individuals who have had access to the materials in CNA custody.)

c. That National Intelligence Estimates (NIE) and Special National Intelligence Estimates (SNIE) not be released, except as to content without identification as national intelligence over the by-line of the Assistant Chief of Naval Operations (Intelligence) or the Director, Defense Intelligence Agency.

d. That National Intelligence Projections for Planning (NIPP) not be released, but that USIB consider the extension of the policy applicable to the release of NIE content without attribution to include NIPPs as well.

2. The USIB disapproved the recommendation in paragraph 9. b. of reference a. , with the understanding that the provisions of DCID No. 1/7 would continue to be applicable in handling CONTROLLED DISSEM material.

3. Accordingly, the above USIB actions are circulated herewith for the information and guidance of all concerned, and referred to the Director, Defense Intelligence Agency, and the Assistant Chief of Naval Operations (Intelligence) for appropriate action with respect to the release of intelligence to the Center for Naval Analyses.

4. A revised version of the "USIB Policy on Release of Intelligence to Contractors," incorporating all revisions of that document to date including the above Board action on paragraph 9. d. of reference a. , is being circulated as a Memorandum for Holders of USIB-D-39.5/19 (reference e. )
